Lecture notes

Guest lecture

Lars van Greet

Analytics professional working at CZ

Data translator

Business solutions rather than technical solutions.

Day in a life:

- Lots of meetings
- Making sure data scientists and data engineers are doing the right job
- Defining what a customer needs and the requirements
- Need to be agile
- Refining which technical direction to go for solutions

Current project

- Current leader of the chatbot team
- They're using ChatGPT like technologies

Studies:

- Communication bachelor
- Master's in data science
